## Grenfell Fair

The annual exhibition was held  
at Grenfell on Thursday and Fri-  
day last, Sept. 27 and 28.

Though a little rain fell Thurs-  
day night, the weather during the  
two days was all that could be de-  
sired. Large crowds came in from  
the neighboring towns and country  
and gave an unusually lively  
appearance to that busy little town.

The President, J. Nicholls, was  
a busy man and deserves much  
credit for the interest and energy  
shown in making the show an un-  
qualified success.

The exhibits in live stock were  
numerous and of excellent quality.

Mr. W. H. Lynch, of Westbourne,  
Man., the well-known pioneer  
through-bred cattle importer,  
acted as judge of the cattle and  
gave satisfaction.

The fancy work, vegetables, and  
airy exhibits shown in the town  
hall were considerably above the  
average as seen at these fairs.

Sports were provided and every  
effort made to give the people their  
money's worth.

## COUNCIL MEETING.

The regular meeting of the Coun-  
cil of the municipality of South  
Qu'Appelle was held in the coun-  
cil chamber on Monday last, all the  
members being present.

The following accounts, after pass-  
ing the F. A. & S. committee, were  
ordered to be paid:

Jas. Cowan, blacksmithing, \$ 1 00

F. Amas, 3 mos. salary as

road overseer, 10 00

Overseer Amas, Sept. report 3 15

" W. Brown, " 28 00

W. Brown, June, July and

Sept. salary, 128 25

S. Cameron, bookwork, 15 00

McGill & Harvey, lumber, 35 20

T. McMichael, st., 6 00

Donald Fraser, 12 00

Jos. Bricker, 10 25

H. Boxall, pulling weeds, 8 25

J. C. Starr, 1 00

THE PROGRESS, stationery etc 24 75

J. Bartle, blacksmithing, 1 25

C. Folster, flushing drain, 2 00

F. Amas, 3 mos. salary to

Oct 1, F. H. & S., 10 00

J. Grant backsett's cemetery 2 00

On motion the sum paid H. Box-  
all for pulling weeds was charged

against the land on which the work

was done.

The report of the Sec.-Treasurer  
showing a Dr. balance in the Stat-  
ute Labor fund of \$784.95, and a  
total Cr. balance of \$837.25 was on  
motion received and filed.

Doolittle—Shaw—That the road  
overseers be instructed that while  
working on the roads to have them  
properly cleared of all brush to the  
full width of the road allowance.—  
Carried.

Doolittle—Johnston—That the  
Sec.-Treas. be instructed to call for  
estimates for the construction of a  
caretaker's house at the cemetery,  
dimensions 12x12x8, cottage roof.

Applications to be received by next  
meeting.

The Council then adjourned.

Khaki neckshields are now worn  
in sunny weather by the London,  
Eng., police force.

## NOTICE.

NOTICE is hereby given that on the  
twenty-fourth day of September, 1900,  
at the hour of two o'clock p.m., at the  
Court Chamber in the Town of Qu'Ap-  
pelle, N. W. T., there will be offered for  
sale by public auction in accordance with the  
terms and conditions of the Municipal Or-  
dinance of the North-West Territories, pre-  
paring for the sale for arrears of taxes,

Qu'Appelle Station, Assa, N. W. T.

## A WARNING NOTE

### THE GOVERNMENT SENDS A NOTE TO AMSTERDAM.

The Canadian Contingent Will Reach Halifax about October 24—Boers Aggressive.

Ottawa, Sept. 30.—This afternoon the following cable was received from Lord Roberts: "Pretoria, Sep. 28.—Idoko, with first portion of the Canadian contingent, should reach Halifax about October 24. (Signed) Roberts."

London, Oct. 1.—Great Britain has sent a note to the Dutch government according to a dispatch from Amsterdam to the Daily Mail, which contains a warning that, if Mr. Kruger is allowed to carry bullion or state archives on board the Dutch warship which is to bring him to Europe, it will be regarded as a breach of neutrality on the part of the Netherlands.

London, Oct. 1.—Lord Roberts reports as follows to the war office: "The Boers attacked a portion of Page's force at Pioniers river station this morning, but were beaten off after three hours' fighting. Buller occupied Middelburg, and the eastern side of Burgers' Pass on Sept. 26 after slight resistance. Heilbron Reitz and Lindley have been reoccupied."

Ottawa, Sept. 30.—Sir Wilfrid Laurier received a copy of the Cape Town Argus, in which there was a report of a lecture given by Col. Biggar. Col. Biggar thanked the ladies' guild for their generous offer to take care of the graves of the Canadian soldiers in South Africa.

### THE BRITISH ELECTIONS.

London, Sept. 30.—Mr. John Pons (Conservative) had the distinction of being the first member returned for the new parliament, having been re-elected today for Lewisham, which he has represented since August, 1891, without opposition. Mr. W. F. D. Smith, son of the late W. H. Smith, (who was first lord of the treasury), and a partner in the great news business, a Liberal-Conservative, was also re-elected today without opposition to represent the Strand district of London.

### NOT SETTLED YET.

New York, Sept. 30.—Nothing could be learned at the New York offices of the various Anthracite coal railroads this morning to indicate that the miners' strike was nearer a settlement than it was yesterday.

Shenandoah, Pa., Sept. 29.—Contrary to the expectation of the strike leaders, most of the employees of the North Franklin colliery, near Trevettown, operated by the Philadelphia and Reading Iron and Coal Co., reported for work this morning under protection of a large force of deputies and coal and iron police. Everything was quiet and orderly as the colliery resumed at 7 o'clock.

Hazleton, Pa., Sept. 30.—All is quiet and orderly in the Hazleton region this morning. General Superintendent Smith, of the Marikie mines, said in response to an inquiry, that the collieries were working today. John Marikie, managing partner of G. B. Marikie & Co., left here early this morning for New York. General Superintendent Smith assured the reporter that Mr. Marikie was merely attending to private business and that his trip had no connection whatever with the strike.

### CITY DEVASTATED.

Seattle, Wash., Sept. 30.—News has been received here that Solomon City at the mouth of the Solomon river, was devastated by the recent storm on the coast of Alaska. All buildings were either swept away by the waves or were wrecked by the wind. The town had a population of 200 all of whom were destitute and homeless.

A message from the sea was picked up on the beach by a soldier on Sept. 17 near the military reservation. The bottle was tightly corked and a message was written on a common paper napkin, and read as follows: "O! Port Safety, Sept. 11, 1900.—Who finds this please report to the authorities. Eight of us left Port Clarence three days ago, and are now sinking fast, with no hope." Signed Jack Iskany, G. L. Meyers, Sam Mark, Cor. Mack, John Dolan, George Thomas, A. M. Dean."

### FLOODS IN KANSAS.

Parsons, Kas., Sept. 30.—Four days of heavy rain resulted today in the breaking of the dam across Labetto creek, above the city. About 250 backs in the lower part of the city were flooded. Many small houses and outbuildings were washed from their foundations. Below here much grain in the stock is a total loss. The city waterworks were compelled to suspend operations today.

### COMING TO CANADA.

London, Sept. 30.—Lord Strathcona returned from Glenage on Thursday, and sails for Canada tomorrow on the Etruria from Liverpool.

## WIRE AND CABLE.

New and Old World's News Condensed.

Toronto, Sept. 30.—The body of Wm. Moore, about 70 years of age, was found in small lake, near Dundas church, with his hands tied. He is supposed to have committed suicide.

Sarnia, Sept. 30.—W. B. Clark, Sr., one of the pioneer business men of Sarnia, and a most respected resident, died suddenly last night. He leaves a widow and a large grown up family.

Thorat, Ont., Sept. 30.—The dry kiln belonging to J. C. Mundell & Co., furniture manufacturers, was burned last night. It was insured. A good part of the lumber was saved though badly damaged by water.

New York, Sept. 30.—It is reported that Marquis Yanguata has resigned his post and been followed by the remainder of the cabinet, says a Herald correspondent. It is added that the Marquis Ito has been summoned to court and entrusted with the task of forming a new cabinet. The preliminary trial of the preliminary trial of George Arthur Pearson, the self-confessed murderer of Miss Annie Griffin, of Dundas, took place before Police Magistrate Jelfs this morning and resulted in the accused being committed for trial at the assizes, which are to be held next month.

Centerville, Mich., Sept. 30.—Wolf Brothers' bank was robbed last night of \$10,000. The thieves gained entrance to the building by pryed open the door, the double door apart with a large log. The outer door to the vault was then blown open and then the inner door to the cash drawer, where about \$10,000 was stored.

Rochester, Sept. 30.—U. S. Marshall Burns, succeeded after the play here of "Dicky Sharp" or "Yonky Fair," in serving an injunction on Miss Gertrude Coghlan, restraining that actress from presenting "Dicky Sharp" until October 5, when she must appear at Syracuse and show cause why a permanent injunction should not enter.

Durand, Mich., Sept. 29.—A fast train collided with a switch engine today on the Detroit, Grand Haven and Milwaukee railroad here. Two men were killed and one was injured. The engines were damaged. The train was carrying a large load of lumber.

Montreal, Sept. 29.—The provincial board of health has taken every precaution to prevent the invasion of the Bihemic plague from Glasgow or elsewhere. It has just received 500 bottles of curative serum from the Pasteur institute at Paris, ready for use in case of emergency. Five hundred cases of the disease could thus be instantly cured.

Winnipeg, Sept. 29.—No evidence was adduced at the inquest into the death of James Proudfoot who was found dead on the C. P. R. track in this city, that would show how the unfortunate met his death, and the jury, after listening to the evidence offered, returned a verdict that they unanimously agreed there was nothing to show the cause of death.

Washington, Sept. 30.—General McArthur cable the war department from Manila that on Sept. 11 Capt. Devereaux Shields, with 51 men of Company F, 29th volunteer infantry, left Santa Cruz for Torrijos. Nothing has been heard from him since, and it is supposed that the entire party, including Capt. Shields, has been captured, with many killed and wounded.

Atlanta, Sept. 29.—Hon. Charles Collier, president of the Cotton States exposition of 1896, and one of the most prominent men in the south, was found today lying at the foot of the stairs in the yard back of his residence on Richardson street with a bullet hole in his left side in the region of his heart. He uttered but one word, "burglars!" and became unconscious. His condition is regarded as critical.

Paris, Sept. 30.—From a source worthy of confidence, "says the Courier du Soir," we learn that the King of the Belgians intends to abdicate before the close of the present year. The plan is to place the Prince of Flanders in favor of the King of the Belgians. King Leopold counts confidently upon the result of the quarrels of rival parties, of his quarrels of rival parties, which would then unite to observe the conditions of the new regime.

New York, Sept. 29.—Charles P. Peck, 60 years old, a real estate dealer, was found dead this morning on the sidewalk. His face, which was badly crushed, was turned toward the river, and his arms were outstretched. He had been given a blow across the bridge of the nose and the face and clothing was covered with blood. Dr. Kenyon from the New York hospital said the man had been dead for some time, but expressed no opinion as to the cause.

Winnipeg, Sept. 29.—One of the prominent conductors of the Trainmen's union states that as a result of the conference with Manager Whyte to rearrange the schedule for the coming year a general increase of wages has been given to all trainmen of the western division of the C. P. R. from Port William to Lagan. This increase includes all train crews, conductors, brakemen and car men. Several other high-grade employees have also received satisfactory results of their schedule have been arranged.

Trenton, Sept. 28.—The body of a man supposed to be John Mitchell, a well known character was found in the river here last evening.

## NEARING AN END

### IS REPORTED THAT THE GREAT STRIKE IS NEAR AN END.

The President of the Lachawana says a Meeting Was Held Friday to Settle the Dispute.

New York, Sept. 28.—President Truesdale, of the Lachawana, said today, referring to the meeting yesterday at J. P. Morgan & Co.'s: "I was at the meeting yesterday at J. P. Morgan's office and at other previous meetings. It will do no harm now for me to tell you that negotiations toward the settling of the strike are actually under way. They are being conducted by a man who is not directly representing either party to the difficulty. Senator Hanna is not the man I refer to, and I have not seen Archbishop Ryan at all."

New York, Sept. 28.—It is stated by a Wall street news agency that the basis of a settlement of the coal miners' strike has been agreed upon, that it involves an increase of ten per cent in the miners' wages, and the miners to waive recognition of the United Mine Workers' union.

Hazleton, Sept. 28.—The Associated Press tonight secured from President Mitchell the admission that he believes the mine operators have agreed to make the striking mine workers an offer of 10 per cent increase in wages.

Baltimore, Sept. 28.—Cardinal Gibbon has been asked to act as arbitrator between the striking miners and the operators of the anthracite coal region of Pennsylvania. While admitting that he has been approached on the subject, his eminence said tonight that he heard from only one side of the parties in the controversy and must decline to discuss the question of arbitration until all has been heard from.

### BUSINESS STILL EXPANDING.

Ottawa, Sept. 28.—The Canadian bank statement for August certainly reflects no contraction in general trade. The circulation shows an increase of \$1,000,000, and over July of this year, and is almost \$6,000,000 in excess of August, 1899. Discounts to Canadian customers remain about the same as they were in July, but to borrowers outside of Canada they have increased over \$1,000,000. Compared with August of last year this item of trade discounts has expended \$39,000,000. Loans on stocks in Canada have increased \$500,000 since July, and out of Canada \$2,000,000, and the banks have altogether \$29,000,000 more money loaned out in this way than in August, 1899.

Holdings of railway securities are \$1,000,000 in excess of July of this year, and \$2,000,000 greater than in August, 1899, and government's debentures nearly \$1,000,000 more than in July and \$6,000,000 in excess of August, 1899. Deposits both on demand and notice show a further expansion compared with a year ago. The foreign balance stands \$12,000,000 in favor of Canada.

### UNITED STATES AND CHINA.

Washington, Sept. 27.—The rapid trend of events in China towards actual formal war, which is regarded as certain to follow the refusal on the part of Germany to enter into negotiations for a settlement in China, is hastening the war department in its efforts to withdraw all the American troops to Manila. The state department has held from the first, that a state of war did not exist with the Chinese government, and it still does not believe there is sufficient ground for changing that position, and refuses to be drawn into war without such ground. If a belligerent power or powers seize upon Peking, the American minister will remain there, and Chaffee's legation guard will stay with him, but taking no part in the war. The power in question, it is held, can find no valid objection to the presence of this legation guard. Chaffee, being at Tien Tsin has by this time received instructions to reduce his force in China. He returns to Peking to execute the order and it will be Monday at latest before he can begin the movement towards Tien Tsin. It is decided that the change in the status of American troops shall have taken place before he appears on the scene. It is stated in diplomatic quarters that definite information has been received that Tuan has been appointed president of the privy council of China, instead of grand secretary as was first reported, and a number of other Chinese officials prominent in the recent uprising, are being similarly honored.

Shanghai, Sept. 27.—Seymour has ordered the battleship Centurion, and other British warships here, to proceed northward. It is reported the order is one of the fact that Russia is intriguing for the permanent possession of the Peking-Tien Tsin railway. Herr Mumm von Schwartzstein left today for Taku, escorted by the German ironclad squadron.

London, Sept. 27.—The China question is again the phase of discussion of the stability of the European concert, and the likelihood of Germany finding it convenient to modify her aggressive attitude.

## DOMESTIC AND FOREIGN.

Telegraphic Intelligence in Condensed Form.

London, Sept. 28.—Colonel Ochiltree is organizing a benefit performance, fixed for October 16, in behalf of the Galveston sufferers. At the outset he interested Sir Henry Irving in the project.

Montreal, Sept. 28.—The United States auxiliary cruiser Hawk which is on her way up the river to Cleveland, went ashore last night at the upper end of the Lachine canal.

Loranzo Marquez, Sept. 28.—The Irish-Americans lately serving with the Boers, have been removed from their barracks to the Portuguese transport India, to prevent disturbances in the town.

Bresden, Sept. 28.—The adjutant of the late Prince Albert of Saxony now confirms the statement that the fatal runaway, Sept. 17, in which the prince lost his life, was caused by the Prince Baganza driving rapidly past Prince Albert's carriage.

New York, Sept. 28.—The secretary of the board of health this afternoon verified the report that the board would at once take steps in the matter of the consumption of soft coal in this city. Warrants will be applied for against all violators of the law regulating its use.

London, Sept. 28.—Another name has been added to the list of Canadians offering themselves for election to the imperial parliament. It is now announced that Mr. Hamar Greenwood, barrister-at-law, formerly of Toronto, has accepted nomination as the Liberal candidate for Grimsby.

Minneapolis, Sept. 28.—Mrs. M. D. Clapp, of this city, today received a letter giving the information that her sister, Mrs. G. F. Ward, formerly of this city, together with her two little children were murdered by Boxers in China about two weeks ago.

Chicago, Sept. 27.—A dispatch to the Record from the City of Mexico says Mexico's congress last night declared the result of the presidential election. General Porfirio Diaz was unanimously re-elected and will be inaugurated next December. The president has entirely recovered from his recent indisposition.

Belleville, Sept. 28.—The grand jury today returned "no bill" in the charge of manslaughter preferred against Wm. Kerr, of Madoc, and James Maboe, of Lindsay, respectively conductor and engineer of the Madoc train which collided with the Peterboro train on July 2, causing the death of Samuel Bird, this city, and Archie Edmunds, of Lindsay.

Windsor, Sept. 28.—A company to be known as the McLaughlin Automatic Air Brake Co., of Ontario, will be organized at once for the manufacture of the McLaughlin air brake. The company is to be incorporated with a capital of a million dollars, and will have its headquarters in Windsor or Walkerville. The brake is in use on the Lake Erie and Detroit River railway and is giving satisfaction.

### Shipping Disasters.

Southampton, Sept. 28.—The American liner steamer New York, Captain Roberts, from New York, Sept. 19 for Southampton, passed the Lizard at 9:30 p. m. yesterday, and should have arrived here at about 4:30 a. m. today, but had not been sighted up to this afternoon. A strong gale and a mist prevailed in the English channel. A tug was despatched in search of the New York.

Southampton, Sept. 28.—The American liner New York, Captain Roberts, here on coming at 10 o'clock, about 17½ hours late. Capt. Roberts reported the steamer had broken her starboard thrust shaft on Tuesday, at 2:30 a. m. The accident will not interfere with her return voyage.

Glasgow, Sept. 28.—The Atlantic line royal mail steamer Ponchartrian, in command of Capt. Fairlie, which arrived today from Montreal, whence she sailed Sept. 11, was damaged by collision when coming up the Clyde, by a smaller steamer. The extent of the damage has not yet been ascertained.

Port Townsend, Wash., Sept. 28.—The steamship Charles Nelson has arrived from Nome, bringing 428 passengers. She sailed two days ahead of the steamer Rosanoke, but was caught in a severe storm and made for Dutch harbor.

Grave fears are entertained among shipping men for the safety of the steamer Robert Dollar, which sailed from here for Cape Nome August 25. The steamer Queen, three days overdue from Skagway, arrived last night with 170 passengers and \$200,000 in gold.

### REPORT SHOOTING AFFRAY.

Wilkes-Barre, Pa., Sept. 28.—A shooting affray took place in the Lehigh valley depot in this city shortly before noon today which may result in the death of one of the victims. For some years past bad blood has existed between the families of William O'Day and Archibald Campbell, of this city. Campbell and his wife were at the depot ready to take a train, when O'Day came up. A few words were exchanged, and then O'Day drew a revolver and fired two shots at Campbell and his wife. One shot lodged in Campbell's back and the other bullet went through Mrs. Campbell's right arm. The woman's wound is not considered serious, but Campbell is in a critical condition and his recovery is doubtful. O'Day was promptly remanded to jail.

## TELEGRAMS CONDENSED.

Principal News in Condensed Paragraphs.

Melbourne, Victoria, Sept. 27.—The Fiji Islands are taking steps to federate with New Zealand.

London, Sept. 27.—Truth reports that the Prince of Wales will probably open the next parliament.

London, Ont., Sept. 27.—At the assize court yesterday morning, Walter Herbert pleaded guilty to having murdered Joseph Sifton.

London, Sept. 27.—The World says the Prince and Princess of Wales will go to Belfast during the last fortnight in January to lay the foundation stone of the Royal Victoria hospital.

Frankfort, Ky., Sept. 27.—James Howard has been found guilty of being a principal in the assassination of Governor Goebel. A verdict was returned this morning and entailed a death sentence.

New York, Sept. 27.—Alex. Haston, bugler of the first section of the Light Brigade, which made the famous charge upon the Russian guns at the Crimean battle of Balaklava on October 25, 1854, was buried yesterday at Maspeth, L.I.

Paris, Sept. 27.—La Patrie prints a Geneva dispatch saying that ex-Captain Dreyfus, who had been visiting friends at Geneva, was set upon by a mob as he was leaving a friend's house, and he had to take refuge in a boat on the lake.

London, Sept. 27.—It is reported that the plague at Sydney, N.S.W., has caused one hundred deaths. Many householders, believing rats carried the infection, poisoned them. They died underground, thus adding danger to the wretchedness.

London, Sept. 27.—Advices from Iceland report a terrific hurricane swept over the island last week, causing the loss of twenty lives. The wind blew at the rate of 120 miles an hour. The country about Ofnar was swept clean by the gale, houses, people, and even grass, being carried away. Dozens of boats came ashore.

Belleville, Sept. 27.—Prof. Wm. Seymour, of Toronto, shot himself at the home of his wife Mrs. Fred Kollius, Madoc, this morning, and died instantly. He had been advised to give up his duties as teacher in Toronto on account of nervous prostration, and his wife and family came to visit him at Madoc last night. He was a son of the late Horace Seymour, and was 45 years of age.

London, Sept. 27.—Among the candidates who are seeking election to the British parliament are two Canadians who have come to the front on this side of the Atlantic. Gilbert Parker, the distinguished Canadian author, whose name is familiar to the whole British reading public, will contest Gravesend, in behalf of the Conservative party. Forster Boulton, another prominent Canadian, that presented himself as a candidate in North Faversham, Kent.

London, Sept. 27.—Once more England is in the midst of a political campaign. And the last election of the century promises to be the last interesting of all. On the question of Mr. Herbert Gladstone, the chief Liberal whip, it is impossible for his party to win over the 160 seats necessary for a victory. There is practically no "sporting feature" in the contest. It is a certainty for the Conservative party. To the public recognition of this fact is due the apathy with which the announcement of dissolution was received though the announcement came more suddenly and left shorter time for preparation than ever before.

Montreal, Sept. 27.—The death of the late Premier Marchand was learned with regret by all classes of society in Montreal. At the opening of the practice division superior court only the high court being in session today, Justice Lacombe, a former colleague of the late premier in the legislative assembly and attorney general in the Chapeau administration made a feeling reference to the death of the premier and said he would have adjourned the court were it not for the urgency of the case before it. It is understood that besides his residence at St. John's the deceased's estate consists merely of a policy of insurance on his life, which will leave his wife in moderate circumstances.

### LAST OF THE SIX HUNDRED.

New York, Sept. 27.—Alex. Haston, bugler of the first section of the Light Brigade, which made the famous charge upon the Russian guns at the Crimean battle of Balaklava on October 25, 1854, was buried yesterday at Maspeth, L.I.

Haston was 80 years old. He sounded the call for the charge of the Light Brigade at Carligan's command.

London, Sept. 27.—Only through the Associated Press, advice from New York published in this morning's papers, does the British public learn that the United States and Great Britain are once again ranged together in opposition to the continental powers. Apparently such a group was entirely unexpected in both Berlin and London, and until an official statement is made, comment will be withheld.

EDITOR AND PROPRIETOR.

THURSDAY, OCTOBER 4, 1900.

*"Let us have faith that right makes might; and in that faith let us dare to do our duty as we understand it."*

**A NATIONAL LACK.**

If there is one virtue more than another that is lacking in the young people of to-day, and often in older people as well, it is reverence. We miss it in the treatment of parents, elders and those in authority. We miss it at church, on the street, in fact almost everywhere. This irreverence is not confined alone to the boys, although perhaps most noticeable in them. Girls whisper through the prayer in church, and reproach the good, old sexton in no respectful manner because the church is not kept just as they would have it. Just recently we learned of a number of boys running and hooting after a hearse, very much as they would after a band wagon. Where was the awe that the mystery of death should bring? Where was the respect, which is but a lighter form of reverence, for the sorrowing friends? What are we coming to, and what will not these boys as men be capable of? Will anything be sacred to them?

In the home the principal fault lies. In the schools much is being done along this line, especially in the teaching of science. When a child stands before a beautiful flower or picture and says, "Oh, oh!" and looks with wondering eye, and can say no more, he is touched with a sense of reverence. When children are taught to admire the beautiful in nature and to draw and model objects, they notice things about them that they never noticed before, and will have a deeper feeling for the beauty and mystery in everything, and for the God back of it all. The children who are gathered into the societies for the prevention of cruelty to animals are learning to revere Him who notes even the fall of a sparrow as well as to protect the weak and speak for the dumb. Yet a great many children are not reared in these ways, and if they all did receive this teaching it would need to be supplemented by careful example and training at home to be effectual. It is in the home where the training in reverence is neglected.

Children often lack the reverence due to age, and although they are not eaten up by bears nowadays as were the children who made fun of Elisha's bald head, yet they are just as surely punished, although

they may never realize how much of the sweetness of life they have missed in having dulled this refined sense. Those who know its value must cultivate it in the child, he himself cannot know.

It is little wonder that children have no respect for the opinions of others, when we remember that few of their elders can speak other than slightly of anyone whose opinion differs from his own. Parents spend much time in showing up the flaws in other people's doings, and no one is perfect, which might better be spent in admiring the good qualities, which usually predominate.—Word and Works.

**RIFLE ASSOCIATION.**

Our suggestion to form a Rifle Association in Qu'Appelle has met with a prompt and hearty response and so far as numbers are concerned the association may easily become an assured fact. Few plans, however, are carried out without meeting with obstacles and this is no exception. The question, and an important one, arises, where is a good and convenient site for the rifle butts? As is well known, the rifles furnished will carry a long distance, from one to two miles, and a proper site must consist of a large open stretch of land backed, if possible, by a bank or hill. We request those interested to look about them and if they can find a suitable place near town to kindly let us know.

Mr. F. R. Blakeney, with his usual liberality, has promised to present the association with a fifty dollar cup to be competed for annually by the "green hands." This should prove sufficient inducement to the interested to enable them to solve the difficulty spoken of above.

**Farmers' Markets.**

**REPLY TO "TOWNSMAN."**

TO THE EDITOR OF THE PROGRESS.

DEAR SIR,—Many thanks for publishing my paper. If it discusses fairly I think it will do some good. Will you allow me to take up "Townsmen's" letter and see what he has made of it? In the first place I think he makes a mistake not to sign his name. There is nothing to be ashamed of in his letter and I think no man should be afraid to openly back up his opinions.

This first point is the new elevator bid. Now I am quite willing to give this a fair trial, even if it is given us by the Liberal government. Opinions differ as to the number of flat warehouses required.

Second point, potatoes, oats, etc. Will "Townsmen" tell us where 50 farmers in the district (only a small number of the whole) could sell a load of potatoes each in one week for cash at a fair price? Once this season I was in town with two sacks of potatoes. I sold one and took the other back because there was no demand for it.

My objection to townspeople keeping cattle, pigs and poultry was twofold. First and most important was on account of the danger to the health of the people. Has "Townsmen" or other townsmen thought of this in all its bearings? If they would consider the subject of drainage and filtering they would understand my first point better. A drain driven across a piece of land 3 feet deep with six inch pipe in the bottom will drain from nine to twelve feet each side. If this is so, what is the draining power of a well from twenty to thirty feet deep and from 15 to 20 feet wide? Take a walk through the town Mr. "Townsmen," and notice how far the wells are from cow stables, pig pens and other unwholesome places and let me

now where the amusing side comes in. Some people think that if water is filtered through the soil it is alright, but sometimes the clearest water contains deadly poison.

In regard to my second objection to keeping cattle, etc., in the town, namely, the spoiling of local markets for farmers, "Townsmen" seems to think that the people could not get any milk or poultry if they had no cows or poultry of their own, without paying a high price. Now sir, though a Cornishman, I have lived in one of the small towns of Lancashire with a population of about forty thousand people, and I never had any trouble to get milk or eggs or fowls. Milk was brought to our door at 3d. or 6 cents a quart. If it is done in the old country in all the large towns, does "Townsmen" think for one moment that the farmers outside of Qu'Appelle would not supply all the milk wanted, provided they got a fair price and regular settlement? The custom in the old country was to pay at the week end. To get fowls to cook, why, Mr. "Townsmen," if you people would bombard D. Brown with orders for poultry every week and let him know that the siege was not to be raised, I will guarantee that he will sell you with live or dead poultry until you wonder where all the fowls come from. You need not go running all over the country and tire yourself out, and, perhaps, go without your dinner. He will drive a fast horse and buy more fowls in one day than you would dream of.

"Townsmen," in his next point says, "and yet I could cite cases where farmers in this very neighborhood have preferred to pay more for their goods and take their chances of their quality rather than purchase goods in this town." Now sir, I have never come across a man yet who preferred to take the trouble to send a long distance for goods and at the same time pay more for said goods. Don't you think, sir, my friend has used a wrong word here? Is it not likely that he thinks he is getting more for his money, and if he is what is the remedy? I have dealt with one merchant in Qu'Appelle for over 14 years and I think with mutual confidence. Perhaps if others did not run around so much they would be better pleased. One thing should not be forgotten, and that is every man cannot be his own blacksmith, joiner, mason, shoemaker, and a hundred other trades, and farm as well, and it is only fair, if a farmer is willing to devote his time and labor and brains to raising goods cheaply and keeps out of other lines of business, that tradespeople should leave his line to him, and if townspeople did not keep cows there would be no more half starved animals running at large ready to devour farmers' wheat sacks, hay, etc., when on the market, and impounding of town cattle by farmers for trespassing and damaging crops would be at an end.

Will you let me say that Canada is behind the old country in some things? Yes sir, I dare to say it again, that Canada is behind the old country in some things. Here is one, the trading or barter system. If Canada would do business for cash only it would be better for everybody. In that old, slow, take-it-easy-don't-be-in-a-hurry country everyone gets cash and pays cash. Of course she is slow, but she is like the mills of the gods, if she grinds slowly she grinds exceedingly fine.

I would suggest that the Board of Trade and the farmers meet and thresh this thing out some time, and see whether we can't work for the good of our district and take our Cornish motto for our guide—"One and all." Nothing selfish about that.

Thanking "Townsmen" for his letter, and you, Mr. Editor, for your valuable help,

I remain

Yours truly,

G. C. D. EDMUNDS.

John Morrison, the murderer of the McArthur family, will stand his trial at Mooseomin on Nov. 13. Morrison's wound has healed and he has regained his usual strength.

# Are You Engaged?

**WHETHER** engaged or married you should have your life insured. You can make out the policy for whom ever you please. If insured your business standing will be improved thereby. We can give you

## CHEAP RATES in

Endowment,

20 Payment Life, or our

Combined Term and Renewal

Option Policy.

To illustrate this combination feature, we will give the figures: A man of 30 takes one of these combination policies for \$1,000. The first five years will be regular term rates of \$14.90 per annum. At the end of the five-year period, if he has elected to take a whole life policy, the rate will be \$23.15 per annum, which is only a slight increase over the rate usually charged at age 30, when the first policy began. By this means the policyholder is virtually able to keep his age level for five years, so far as insurance premiums are concerned. This is no small advantage when a man wants all the protection a given amount of money will possibly buy.

A PURE GRAPE CREAM OF TARTAR POWDER

DR. PRICE'S CREAM BAKING POWDER

Highest Honors, World's Fair Gold Medal, Midwinter Fair

Avoid Baking Powders containing alum. They are injurious to health

Lebrot.

From our own correspondent.

Miss A. Meehan, Teacher of Kronsberg school, spent Saturday and Sunday at her home here.

Messrs. Wilson and Craig were visitors at the Industrial School last Saturday.

The snow storm of Tuesday seriously interfered with threshing operations.

Rev. Fathers Magnan and Laussie went to Winnipeg on Monday to meet the Papal Delegate, Mgr. Fulconis.

The first news received from Mr. H. Cameron, is, we are pleased to say, quite encouraging. He had arrived at Alexandria and was feeling considerably improved in health.

Mr. A. Williams of Balcarres was at the Industrial school on Friday.

The threshers have almost completed work on the File Hills Reserve. The crop has turned out very well considering the unfavorable season, the wheat averaging in the neighborhood of 25 bushels to the acre.

Miss Julia Meehan, who has been away for some days past, is, we are pleased to say, able to be out again.

Their Excellencies, Lord and Lady Minto, will visit the Industrial School on Oct. 14th. They and party intend, we understand, to camp for a few days at the Fort.

Speaking at Fort Qu'Appelle Mr. Sifton, the readers of THE PROGRESS will remember, stated that while the government had imposed a duty on raw duty this made no difference in the price of refined sugar to the consumer. A few days previous speaking at Brandon, however, he declared that while the duty on binders or mowers had not been reduced yet a reduction had been made in the duty on raw iron used by the manufacturers, thus causing a reduction in the price of the goods. Will some admirer of Mr. Sifton kindly explain by what "how and improved" process of logic the hon. gentleman, starting in the two cases with identically the same premises and employing exactly the same data arrives at conclusions diametrically opposed to each other? We give it up. Probably our friend of Springbrook would be kind enough to turn the search-light of his intelligence upon this problem.

Miss Miles of Vernon was at Lebrot on Sunday.

Springbrook.

From our own correspondent.

Messrs. W. and M. Wright, of Kerdia, visited the settlement on Sunday.

Mr. and Mrs. Seymour visited Wide Awake on Sunday.

Mr. J. Abernethy from Ont. is visiting his uncle, Mr. S. Robb.

Quite a number of our ladies visited the Industrial School last Monday.

Mr. T. Barr, of Saltoun, visited his brother here last week.

Mrs. McNaughton and Mrs. Seymour spent Friday at Wide Awake visiting friends.

Mr. J. Elliott arrived from Ont. last week and is visiting friends and relatives in this district.

Our teacher, Mr. Jeff, visited

Regina on Sunday.

Farmers have been busy this last week cutting green oats.

Shooting chickens is the rage just now. Large numbers are being shot.

Next Sunday Rev. Mr. Squire will preach his farewell sermon. Mr. Squire has labored earnestly here for the past eighteen months, and we all regret his departure to his new field in Weyburn.

Edgeley Echoes.

From our own correspondent.

After some delay the lathers from Indian Head have come to this district and have done their work up in quick style.

Two threshing outfits are now hard at work in this neighborhood. Craig Bros. have threshed for Mr. J. T. Craig and the Syndicate for Mr. Howden. It is too bad that the weather is not more favorable.

Mr. J. T. Craig is on the sick list, but we soon hope to hear of his recovery.

Mrs. McGork of Qu'Appelle Stn. visited friends in this district recently.

Mr. Geo. Ambler lately, while on a business trip, passed through this district.

We hear that Trooper Ed. Anderson, of Strathcona's Horse, had a narrow escape while out scouting. Owing to some misunderstanding on the part of an officer, six of the boys unnecessarily exposed themselves to the Boer shots. Five were killed while the sixth (Ed.) had his rifle and cap knocked to some distance from his person. This is certainly a close call, but we are all pleased that Ed is alive and able to tell the tale. May he soon return unscathed.

Messrs. J. T. Craig and T. J. Wilson recently made a business trip to the Industrial School, Lebrot.

Mr. Geo. Ellis met with an unfortunate accident lately, while on his way home from town, but is now quite recovered.

Miss Maggie Craig spent last week visiting relatives at Indian Head.

A meeting of all interested will be held in the hall on Thursday evening at 7.30 p. m. to get up a harvest home celebration.

Mr. James McNeil of Springbrook visited friends in this district on Sunday.

Miss Myrtle Fessant of Qu'Appelle Station has returned from visiting her uncle, Mr. Joseph Fessant.

One of our young men had a

rather unpleasant experience while driving over a dam up west. Perhaps his thoughts were on the fair sex; anyhow the result was a broken buggy and a good wetting.

C. P. R. House Boat.

A Most Delightful Outing Home for Those Who Desire It

The new C. P. R. house boat which is now completed and ready for occupation has been visited by a large number of Nelson people, all of whom declare it to be an ideal outing home. The boat is completely furnished in every respect. The four staterooms with their four double and four single berths are equipped with everything one would desire in a bedroom at home. In the dining room are all that a dining room requires, silverware, glassware, etc., and the room itself is sufficiently large to accommodate any party that could travel on the boat. The kitchen is complete too, and, in fact, there is nothing lacking anywhere. All of the rooms are carpeted and the hallway is laid with oilcloth. Upstairs you are in the open air, with an awning to shield you from the sun and a hammock if you would lie down and read and rest. No more delightful place to spend a week or two, could be imagined, provided, of course, the boat is anchored in some one of the thousand beauty spots of Kootenay Lake. Nowhere, perhaps, in all the Dominion of Canada is there a body of water offering to the man of the reel and the fly or to him of the gun such inducements as are offered anywhere on Kootenay Lake, and nowhere are there more delightfully secluded places than can be found here. And it is to give visitors the opportunity of seeing all this, under most pleasant conditions, that the C. P. R. has caused to be built this house boat. It is to be rented to parties and at a figure which makes it within the reach of everyone who can afford an outing. The boat itself will rent at \$5 per day with a minimum charge of \$20. It will be towed to any point that can be reached from Nelson at the regular towage charge of 50 cents a mile, with a minimum towage charge of \$5. All that those who rent the boat have to do is to stock it with eatables and drinkables. Nothing else is required by them unless they desire a servant and this the C. P. R. will undertake to secure for them.

RHEUMATIC, here is a Cure

Positive Proof of Absolute Cures Effected Among the Worst Cases of Rheumatism by the Great South American Rheumatic Cure--Crippled Men and Women Relieved in Six Hours.

A Case That Baffled the Skill of Twelve Eminent Physicians, Surrenders to This Great Remedy--Most Desperate and Violent Cases of Rheumatism Yield.

This is a Remedy That Drives the Disease From the System, and for This Reason Effects a Permanent Cure.

It is natural that the man or woman who has suffered intensely from disease should become discouraged, and, losing hope, come to believe that his or her case is incurable.

Backed with pain, every moment full of agony and suffering, every means apparently adopted to have given relief and only failure the result, it is to be expected they should be sceptical when another remedy is proposed.

But hope need not desert from the rheu-

matic with the great South American Remedy at his hand, for this is no new experiment. You can find those who have been relieved among the people of Canada from ocean to ocean. Those who have suffered most and tried most to get relief, are among the citizens who will frankly tell their fellow-citizens that this particular remedy has given relief when everything else has failed.

While its victims will admit that rheumatism is a terribly painful disease, they cannot themselves sometimes with the thought that it is not dangerous. This is a great mistake. Rheumatism and neuralgia, which is a feature of rheumatism, will often strike some vital part, possibly the heart, and the strongest know what the result will be.

The great secret of the South American Rheumatic Cure is the fact that it strikes at the seat of the disease. It is not something superficial, a rubbing of the outside and giving temporary relief. Rheumatism is a disease of the blood and an satisfactory cure will be effected unless the medicine is such that it will neutralize the acid poison in the blood and thus remove the cause of the disease.

This is really the success of the South American Rheumatic Cure. It is the outcome of some years of study of a specialist, a doctor right to the root of the trouble, and in a short time in such a condition that the patient is enabled to move about freely, and the disease is removed.

The great South American Nervine is a success for pretty nearly all the diseases that women are heir to. It will enable them to get up and from nervous prostration as no other medicine will do.

The great South American Kidney Cure is a most effective and speedy in treatment. It cures almost without fail in any case of kidney or bladder trouble.

For sale by W. H. Hunter.

# MANITOBA GRAIN ACT.

A Synopsis of This Important Law Now in Force.

We publish below a complete synopsis of the Manitoba Elevator and Warehouse Act, showing all the salient points and provisions of the same.

Sections 1 to 13 are of an interpretative character, citing the title of the act and limiting its operation to the inspection district of Manitoba, providing for the appointment and defining the duties of the warehouse commissioner, whose office is located at Winnipeg, and weighing master, and fixing fees for weighing grain. The fees are, for each carload, 25 cents, and each carload, per 1,000 bushels, 10 cents.

Sections 14 to 28 deal with terminal elevators and warehouses, the managers of which must procure a license from the commissioner. Provision is made that such terminal elevators shall receive for storage any grain, dry and in a suitable condition for warehousing, that is tendered in the usual manner in which elevators are accustomed to receive grain in the ordinary course of business, not making any discrimination between persons desiring to avail themselves of warehouse facilities such grain to be in all cases inspected and graded by a duly authorized inspector, and to be stored with care, in a similar manner. In no case shall grain of different grades be mixed together while in store.

Sections 29 to 42 are of more general interest to the public, as relating to country elevators, flat warehouses and loading platforms. All elevators and warehouses are declared to be public, and must secure an annual license, as also being subject to the government and control of the rules and regulations promulgated by the governor-in-council. Section 41 states that "the person operating such country elevator or warehouse shall keep a true and correct account in writing, in proper books, of all grain received, stored and shipped at such elevator or warehouse, stating in each receipt the grade and quantity of grain, and the date of each lot of grain received in store for sale, storage or shipment, except as hereinafter provided, and shall, upon the request of any person delivering grain for storage or shipment, receive such receipt without discrimination, as to persons, during reasonable and proper business hours, and shall insure it against loss by fire while in his elevator or warehouse, and shall, upon request, deliver such receipt, and warehouse receipt or receipts therefor, dated the day the grain was received and specifying upon its face the gross and net weight of such grain, and the grade or grades in which it was received, conformably to the grade fixed by law and in force at terminal points; and every such receipt shall state upon its face that the grain mentioned in such receipt has been received in store, and shall, upon the return of such receipt, and upon payment or tender of payment of all lawful charges for receiving, storing, insuring, delivering or otherwise handling such grain, which charges may have accrued up to the time of the return of such receipt, such grain is deliverable to the person on whose account it has been taken in store, or his order, either from the elevator or warehouse where it was received, or to any other person or party so desired, in quantities not less than carload lots on track at any terminal elevator in the inspection district of Manitoba on the same line of railway or any line connecting therewith, so soon as the transportation company delivers the same at such terminal and the certificate of grade and weight are returned, except that in the case of a country elevator or warehouse on the Northern Pacific and Manitoba railway line or any line connecting therewith, if either party desires such grain to be shipped to a terminal point, it shall be delivered in truck at the proper terminal elevator at or adjacent to, Delisle, which grain when so delivered at terminal points shall be subject to freight, weighing and inspection charges and all other charges of any lawful at such terminal point, and the party delivering shall be liable for the delivery of such grain, as well as for weighing at such terminal point conform to the grade according to Canadian government inspection and as far as possible to the weight mentioned in such receipt. Nothing herein shall prevent the grain in dispute from being taken up by either of the parties, or by either one of them if the other declines, and forwarded in a suitable sack, properly tied and sealed, express charges prepaid, to the chief inspector at Delisle, which shall be forwarded to the proper office, in writing, of either or both

of the parties aforesaid, that the said chief inspector will examine the sample and report on the dockage of the said grain, or, in his opinion, entitled to, and would receive, if shipped to the terminal points and subjected to official inspection.

"2. It shall be the duty of the chief inspector, as soon as practicable, to examine and inspect such sample or samples of grain and to advise the proper dockage to which it is, in his judgment, entitled, and which grain of like quality and character would receive if shipped to the terminal points in carload lots and subjected to official inspection.

"3. As soon as the chief inspector has so examined, inspected and advised the dockage he shall make out in writing a statement of his judgment and finding, and shall transmit a copy thereof by mail to the owner of the grain, and to the agreement, preserving the original together with the sample on file in his office.

"4. The judgment and finding of the chief inspector on all or any of the matters aforesaid shall be conclusive.

"5. Whenever complaint is made in writing, under oath to the commissioner by any person aggrieved, that the person operating any country elevator or country warehouse under this act fails to give just and fair weights or grades, or is guilty of making unreasonable dockage, for dirt or otherwise, or fails in any manner to operate such elevator or warehouse fairly, justly and properly, or is guilty of any discrimination forbidden by the act, then it shall be the duty of the commissioner to inquire into and investigate such complaint and the charge therein contained, and to this end and for this purpose, the commissioner shall have full authority to examine and inspect all books, records, and papers pertaining to the business of such elevator or warehouse and all the scales, machinery and fixtures and appliances used therein, and to take the evidence of witnesses under oath, and for that purpose to administer the oath.

"6. In case the commissioner finds the complaint and charge therein contained, or any part thereof, true, he shall give a certificate in writing, in order to afford prompt redress to the person injured, the commissioner shall make a special report of the fact found and ascertained upon the investigation of the complaint, and shall deliver such report, and such report shall include a copy of his decision, to the minister of inland revenue, who may institute and carry on in the name of the complainant, or on behalf of the person injured, such proceedings as he may deem fit, such action, civil or otherwise, as may be necessary and appropriate to redress the wrongs complained of and to prevent their recurrence.

"7. The creation of flat warehouses and loading platforms is provided for in sections 41 and 42 as follows: "On a written application to the commissioner by ten farmers residing within forty miles of their nearest shipping point, he may give permission to any person to erect under the provisions of this act, a flat warehouse, covered with metal, of not less than 3,000 bushels capacity with power to enlarge the same should necessity require it, at such shipping point. Such flat warehouse shall be erected on the railway company's premises after getting location of a siding, and the railway company shall be compelled to give such location with siding on its premises, in some place of convenient access, to be approved by the commissioner, at a rental not greater than that charged by standard elevators. If in the judgment of the commissioner more than one such warehouse is required at a station, one or more additional warehouses may be authorized by him, and in such case all the provisions of this section shall apply to the construction of such warehouses, except that in the case of such additional warehouses the commissioner's decisions of erecting it shall be liable to pay a rental equivalent to six per cent interest upon the value of the lands taken, such value to be determined upon and fixed by the commissioner, and he shall be liable to pay the cost of constructing the necessary siding, the company providing the necessary rails and fastenings and charging the applicants either the actual cost thereof, or a percentage of not more than five per cent upon such actual cost, at the option of the applicants.

"8. The owner and operator of such warehouse shall give bonds and be licensed in the same manner as elevators or warehouses.

"9. Such warehouse shall contain not less than three bins of 1,000 bushels capacity each, and each bin shall be numbered by a separate number.

"10. The owner of any such warehouse shall on the application of any farmer undertaking to ship a carload of grain, allow such farmer a bin in such warehouse, as soon as one is available. The allotment of bins to applicants shall be made in the order of applications, and without discrimination of any kind. No farmer shall be allowed to hold more than one bin at any one time to the exclusion of other applicants, and no bin shall be made in force to be approved of by the commissioner, and bank forms for such applications shall be furnished to applicants by the warehouse operator.

forms for such applications shall be furnished to applicants by the warehouse operator.

"11. The owner or operator of any such warehouse shall, at once, on every allotment of a bin, apply in writing on a form approved of by the commissioner, but furnished by such warehouse operator, to the proper railway official to furnish a car to the person to whom such bin is allotted, stating in such application the time when the car will be required, such time to be not later than five days from the allotment of the bin.

"12. The shipper shall be allowed for filling such bin and loading on car six clear days exclusive of Sundays, and as much longer time as is necessary to get and load a car from such bin (twenty-four hours being allowed for such loading), if a carload of grain is not delivered within the time above provided, the warehouse operator may at his option either load on the grain then in such bin and ship it by the owner to terminal elevator subject to freight inspection and weighing charges at terminal and all charges of such flat warehouse, use including an additional charge of one-half a cent per bushel for such loading, or he may sell such grain on account of the owner thereof and shall then be liable to account to the owner for the proceeds, after deducting all proper charges.

"13. The charges for the use of a bin and the services of the warehouse operator in weighing the grain as it is loaded into and out of the warehouse by the person to whom the bin is allotted, shall be subject to such regulations or reduction as the governor in council may from time to time deem proper.

"14. No owner or operator of any such warehouse shall be allowed to store in or ship through grain purchased by or for himself.

"15. On a written application to the commissioner by ten farmers resident within twenty miles of their nearest shipping point, and on approval of the commissioner, the railway company shall erect a loading platform suitable for the purpose of loading grain, vehicles direct to cars. Provided however, that the railway company shall not be obliged to erect any such platform outside of the limits of the station yard. Such platforms shall be at least ten feet wide, and of such length as is in each case determined by the commissioner, in addition to the approaches at each end, and shall have on the side farthest from the track a guard-rail not less than three feet high. Such platforms shall be free of charge for the loading of grain.

"16. Under section 43 commissioner merchants handling grain must secure an annual license and give a bond, to be forfeited in case of default, to all persons entrusting him with grain for sale.

"17. By section 44 twenty-four hours are allowed for loading a car direct from vehicles or at a flat warehouse to be reckoned from the time when the car is placed at the shipper's disposal on siding.

"18. Such of the rules and regulations as refer to dealings between producers, buyers, shippers and elevator or warehousemen, together with such portions of this act as the commissioner, or the governor in council, deems proper, shall be printed in reasonably large type by the commissioner and posted in a conspicuous place in every licensed elevator or warehouse by the owner thereof. Among the general provisions are:

"19. Persons interested in the weighing of any grain at country elevators or warehouses shall have free access to the scales, while such grain is being weighed, and shall, when cleaning is done, have ample opportunity if they so desire of personally ascertaining the net weight of the cleaned grain if facilities exist for doing so.

"20. The wilful falsification or misstatement of the weight of grain as weighed, and the use of concealed or other weights in such a way as to falsify or change the apparent weight of grain being weighed, shall be offenses punishable with fine upon the guilty party, or loss of license, or both.

"21. Any person in charge of scales at a terminal or country elevator or warehouse who finds that such scales are defective shall report the fact to the inspector of weights and measures and to the owner of such elevator or warehouse.

"22. No new elevator or warehouse shall be operated until the scales are inspected and approved by the proper weights and measures officials.

"23. Where in any grain elevator warehouse grain is cleaned before being weighed, the provisions of this act requiring a carload of grain, weights shall not apply to such grain.

"24. Any person offering for sale or storage grain, the different qualities of which have been wilfully manipulated with intent to deceive the person to whom it is offered for sale, or the person or persons receiving it for warehousing, as to the true quality of such grain, shall be guilty of an offense.

"25. Any person guilty of an offense specified in this act or guilty of violating any provision of this act for which a specific penalty is not herein provided, shall, on summary conviction, be liable to a fine not less than ten dollars and not more than one hundred dollars.

"26. A grain elevator is the milky sap of the Canadian grain trees of the East Indies.

## THE NEWS IN BRIEF

SATURDAY, SEPTEMBER 29.

The Russians have captured Kirm, in Manchuria.

Solomon City, Alaska, was destroyed by fire, and the city is now a ruin.

The King of the Belgians, Leopold, is anxious to abdicate.

Johnson was killed in D. S. Perrin & Co's factory, London, Ont.

The general store of Hill & Mallory, Toronto, was destroyed by fire.

### Paderewski the Deceiver.

This is how a Kansas newspaper

man criticized Paderewski:

"We heard the Paderewski

play the piano in Convention hall, Kansas

City. The fellow is deceitful. He

makes you think all the time he is going

to play a tune, but he never does. He

thinks all around a tune, but never

touches it. His hair looks like a wig,

but it isn't. He deceives you in a hundred

ways. He makes the sweetest

sounds you ever heard that were not a

tune. He has his piano so trained that

the doggone thing will keep right on

playing when he is not touching it.

He reaches out slowly and strokes it,

drawing back his fingers like a man

brushing a girl's hair. You see this

moment, and you're there with your

girl, but you don't touch her. You

know the sorrow of that, and

that's why we don't like Paderewski.

We wouldn't go to hear him again, but

we wouldn't take \$100 for what we

heard at Convention hall."

### The Tower of Famine.

The Torre della Fame, or Tower of

Famine, was noted for its gruesome

history. It once stood in Pisa, Italy,

but there are now no traces of it.

Count Ugolino della Gherardesca, whom

Dante immortalized, was the head of

the Guelphs, and because of his treachery

and accredited attempts to place

his country in bondage he was antagonized

and finally conquered by the

chief of the Ghiblins, who imprisoned

him, with his two sons and two

grandsons, in this tower, the slow

method of starvation being employed

as the manner of their death. The

door of the tower was locked and the

keys thrown into the Arno.

## LOCAL NEWS

Subscriptions are flowing in almost daily. Kindly show THE PROGRESS to your friends and induce them to subscribe. See advts. of clubbing and discount offers.

The post office at Balgonie has been transferred from T. A. Matchett to John K. Wilson, of Wilson of Wilson & Weir.

A resident of Edgeley has propounded the following query. What is the distance from Whittingham's to Whittingham's and what is the difference in distance if you go around by Pessant's? Will someone in Edgeley answer?

### Ex. Farm Report.

We have received with the compliments of the author a report of the experimental farm for the North-west Territories by Superintendent Angus Mackay, of Indian Head. The book should be in the hands of every farmer in this district as there is much instructive matter contained therein at home.

The Free Press, of Winnipeg, was "At Home" on Wednesday evenings of last week and this. There new presses are now in working order and are turning out first class work. We have received invitations to these gatherings to go with a beautiful souvenir pamphlet illustrative of the old and the new. The work is of a highly artistic quality.

### Special Edition.

A special number of the Free Press will be issued on Saturday next, Oct 6. It will contain a large number of illustrated articles on early and modern printing, irrigation in Alberta, reminiscences of Manitoba and other subjects besides all the latest news, and will be the largest paper ever issued west of Toronto, consisting of 28 pages. Price 5 cents. Leave your orders at this office.

### The Weather

The ground has been alternately white and black during the past week, due to snow storms and rain, while the people are looking blue over the outlook. There is no denying the fact that the prospect from Regina to Winnipeg is far from cheering and much hardship and straitened circumstances if not starvation will be found in some localities. Every year is an exception in this country but this year is an exception to exceptions.

### An Interesting Number.

A score of writers and artists contribute to the October Ladies' Home Journal, and the issue is one of commanding excellence. The number opens with "The story of a Young Man," which, portraying Jesus as a man, and viewing him in the light of his humanity, fills a unique and unoccupied place in current literature. The first of "A Story of Beautiful Women" tells the romance of an American girl who married a Bonaparte, and a series of stirring adventures are narrated in the first of the "Blue River Bear Stories," by the author of "When Knighthood was in Flower." Mrs. Elizabeth Stuart Phelps's new novel, "The Successors of Mary the First," which has to do with domestic and suburban life, and is exceedingly funny, is begun in the October Journal. Edward B. K. arranges the Fallum Palace Car Company for teaching the standards of decorative art. Of the special features of interest are: "The Longines of a Secluded Girl," "A Minister Among the Cows," "Romances of Sam South," "The Home," "How We Can Lead a Simple Life," and "Outing the clothes of the Minister's Family." "A Georgian Home for \$750" and "A Farmhouse for \$4,500" are given, with building plans and details, and "A Successful Country Home" pictures the exterior and interior of a house of 12 construction. By The Curtis Publishing Company, Philadelphia. One dollar a year; ten cents a copy.

## LOCAL NEWS

Mr. Wm Johnston returned on Tuesday from a trip to Winnipeg.

Mrs. Jas. McNaughton went to Regina on Monday night.

Thursday, Oct. 18, two weeks from today, has been proclaimed Thanksgiving Day.

R. S. Smith, of Carleton Place, formerly of Fort Qu'Appelle, has sold the Qu'Appelle Valley hotel to an eastern man who will take possession on the 15th inst.

W. G. Haultain, of Regina, brother of Premier Haultain, was in town on Tuesday attending Court. While in town Mr. Haultain made us a friendly call.

### Grapes and Apples.

A. McKenzie is offering apples at \$3.50 per barrel and is also prepared to supply all comers with grapes. See advt.

### Labour Gazette.

The first number of the Canadian Labour Gazette, published at Ottawa, has been received. It will be published monthly and may be obtained at three cents per single copy or twenty cents per year by applying to the Accountant, Dept. of Labor, Ottawa. State whether English or French version is required.

Lord Minto and party are due to arrive at Fort Qu'Appelle on Saturday next and will probably arrive in Qu'Appelle on Sunday evening. No provisions have been made for camping at the Lakes. Lady Minto and daughters arrived here on Wednesday about noon by special train and remained until evening when they proceeded on their way to Winnipeg.

Mr. E. Cook, who came from Gananoque nearly two years ago to join the Qu'Appelle Felt and Boot Co., left on Tuesday for Medicine Hat where he will reside. Mr. Cook has been in town for the last few weeks looking after his interests in the winding up of the affairs of this company, but has departed a poorer and a wiser man as no sale of the property has been effected. Mr. Cook found many warm friends in Qu'Appelle, and those who knew him will regret to hear of his departure.

### Boiler Inspection.

One who is highly interested would like to know where the fee of \$5 goes which is paid by the owners of threshing outfits to the government boiler inspector, who makes his tour of inspection annually. Those who have paid the fee claim they are in the dark, and cannot even get a receipt for the money paid. They would also like to know whether the said fee belongs to the boiler inspector or goes into the general funds of the Territories? Who will be kind enough to answer through THE PROGRESS?

If interested one will turn to the Ordinance on Inspection of Steam Boilers and examination of Engineers operating the same he will find in S. 9 the following: Every owner of a boiler shall cause it to be inspected at least once in each and every year by an inspector appointed under the provisions of this Ordinance and shall pay to such inspector a fee of \$5 for such inspection, such fee to be forwarded by the inspector to the commissioner to be credited to the general revenue fund of the Territories.

### Must Be Settled.

We are sending out several hundred dollars' worth of accounts to delinquent subscribers and shall expect a prompt response. Our friends will please remember that a newspaper cannot be run without money and govern themselves accordingly. All whose subscriptions are not paid recently due will kindly send \$1.00. Subscribers from 6 months to one and a half years in arrears will be allowed the advance rate if paid during October. After October 31 the arrears rate of \$1.50 per year will be strictly enforced. Subscribers over 1 1/2 years in arrears will be given to Oct 31 to pay at \$1.50 per year or their accounts will be placed in a collector's hands. Prompt payment will save expense.

## For Fall 1900.

J. P. BEAUGHAMP & Co

### Supreme Court.

His Hon. Mr. Justice Richardson presided at the fall session of the supreme court here on Tuesday. One of the most important cases to come before the court was that of Howden vs. C. P. R. in which Mr. Howden sued the company for the loss of a horse killed on the track. Judgment was reserved. The decision will be looked for with some interest as it involves the question whether it is compulsory for the C. P. R. to fence their line.

### Teachers Convention.

The Central Assn. Teachers' Assn. met in convention at Grenfell on Thursday and Friday last. Between thirty and forty members were present and some valuable papers were read and discussed. Probably the most important feature was the delivery of several addresses by Dr. Goggin, of the Education Department. Of these his address on Nature Study was the most interesting and instructive and many a teacher went home with a new light on that subject. The officers chosen were: Pres. D. S. Williams, Saltoun; Vice-Pres. Miss Kyle, Indian Head; Secy. Trans. J. McLeod, Grenfell. Delegate to Territorial convention, Mr. Muddelmiss. A pleasant feature was the adjournment on Friday afternoon to attend the exhibition of the Directors at the suggestion of President Nicolls, having kindly presented each of the teachers with a complimentary. A vote of thanks to the Ag. Society was heartily and unanimously carried.
